General information

Efficiency of motors.....	2
Ratings – Tolerances.....	4
Standards.....	4
Insulation classification.....	5
Hazardous Area Classification.....	6
Gas and dust subgroups.....	7
Temperature classes for gases.....	7
Equipment groups, safety categories and level of protection.....	8
Cooling.....	10
Standard terminal box equipment.....	11
Vibration level.....	11
Noise level.....	11
Terminal box.....	12
Degree of protection IP.....	14
Painting and corrosivity classes.....	15
Mounting arrangements.....	16
Definitions.....	17
Permissible shaft end loads.....	18
Bearing types and bearing nodes.....	20
Material of housing, end shields and feet.....	22
Nomenclature and Ex marking.....	23
Frequency converter operation (VSD).....	23
Totally Enclosed Motors IP 55, f=50Hz, RPM=3000 min⁻¹.....	24
Totally Enclosed Motors IP 55, f=50Hz, RPM=1500 min⁻¹.....	25
Totally Enclosed Motors IP 55, f=50Hz, RPM=1000 min⁻¹.....	26
Totally Enclosed Motors IP 55, f=50Hz, RPM=750 min⁻¹.....	27
Dimensions of Foot Mounted Motors – IM B3.....	28
Dimensions of Flange Mounted Motors – IM B5, IM B14, IM V1.....	30
Dimensions of Foot / Flange Mounted Motors – IM B35, IM B34.....	32
Flameproof motors with electromagnetic brake.....	34
List of Motor parts.....	35
Ordering information.....	38
Order form.....	39
Certifications.....	40
Our approach.....	42
Cantoni Group, Cantoni Motor.....	43
