

FlexiTog®

ENDURANCE 690C

LASTS UP TO x4 TIMES LONGER

A combination of Kevlar fabric and a dual layer of Cow Hide leather and UG grip technology means that it's no surprise this glove is used in so many cold stores throughout Europe.

SUPERIOR WARMTH

Clo Insulation offers superior warmth, breathability and a high warmth to weight ratio; perfect for freezer picking gloves.

ULTRA GRIP

The UG Grips on the fingers of the glove provide precise and secure grip when undertaking tasks that require more dexterity, such as writing.

The toughest, most durable cold store glove!

The Endurance glove features unique technology that makes the **durability, dexterity and warmth** of this glove unrivalled.

FG690C FEATURES

- Available in 6 sizes
- Protective leather knuckle guard
- Durable Kevlar® palm
- Flexibility
- Designed for high wear applications such as picking and pallet wrapping

ENDURANCE DRIVE 646

OUR WARMEST GLOVE

This glove was tested by our in-house freezer laboratory and outperformed our two other warmest gloves extremely well, proving itself to be our warmest glove to date.

REMOVABLE MITTEN

The exterior removable mitten means heat is shared between fingers and less surface area is exposed therefore losing heat.

DEXTERITY

Combining the warmth of a mitten with the dexterity and practicality of a glove, the mitten can be unzipped for more intricate tasks.

Our warmest glove to date!

Combining the warmth of a mitten with the dexterity and practicality of a glove. A unique product which provides a huge benefit to those spending long periods at subzero temperatures.

FG690C FEATURES

- Extra long knitted wrist for added warmth and wrist protection
- Dual stitching strength on the weaker areas
- Elasticated cuffs
- Artery guard for added protection from cuts and damage
