

# **IKO** Mechatronics Series General Catalog

---

CAT1580.1E

# Good Environment

IKO Precision Positioning Table is a product brought out from an integration of the linear motion rolling guide technology, which we have developed for many years, and the state-of-the-art technology in microelectronics.

IKO Precision Positioning Table is composed of many leading-edge components carefully chosen to meet stringent needs. In the table guiding parts in particular, IKO linear motion rolling guide, which has been well proven in the fields of super precision machines and machine tools, is incorporated to make full use of their high potentials.

IKO Precision Positioning Table has proven its excellent performance through a wide range of applications as a positioning mechanism for the state-of-the-art LCD and semiconductor manufacturing facilities such as a variety of measuring equipments, processing machines, and assemblers.

# and Good Quality
