Here, not only the price is right, but quality and performance as well

Quality that stands up to any comparison

EUROCHAIN stands for solid, reliable quality – absolutely equal to the top brands of other European suppliers. EUROCHAIN chains are manufactured in accordance with DIN ISO 9001 and have solid rollers as standard. The breaking strength is significantly above the minimum DIN values.

Consistent pre-stretching results in minimum initial elongation. All EUROCHAIN chains have blued outer plates and are labeled with the EUROCHAIN stamp – no no-name product, but quality with a good reputation.

No nasty surprises

The EUROCHAIN logo and plate stamp are internationally protected. This eliminates the possibility of inferior copies and fraudulent imitators.

Money saving aspects

EUROCHAIN chains are provided with an effective initial lubrication (hot lubricant) and are therefore ready to be installed immediately. Temperature ranges from -25 °C up to +250 °C. Possible alternative is a low temperature lubricant from a range of -50 °C up to +50 °C.

iwidur high-performance lubricant **NEW**

The new high-performance lubricant iwidur has been developed specially for iwis' EUROCHAIN product range. With its excellent wear and corrosion protection performance it helps extend the chains' running lifetime. The optimum temperature range is from -25 °C to 80 °C. For more information please ask for our iwidur Flyer.

48-hour delivery service

EUROCHAIN standard lengths (5 m carton boxes or reels) are delivered nationwide within 48 hours from an excellently stocked warehouse. In particularly urgent cases we offer 24-hour service. The EUROCHAIN assortment can also be supplied in customized lengths.

Conveyor chains made-to-order

Our eurochain competence center in Wilnsdorf is focused on customized conveyor chains with wide attachment plates, bent attachment plates and extendend pins. Short delivery times are guaranteed.

Considerable price advantages

In the mid-market segment, EUROCHAIN chains offer considerable price advantages compared to established suppliers. This outstanding value for money makes them even more interesting. EUROCHAIN really saves you money.

”The **EUROCHAIN** chain is a brand-name product. The chains are manufactured according to the strict **iwis** guidelines and are subject to constant quality control on location.”
