Performance under Pressure

www.larzep.com

Larzep manufactures and markets high pressure hydraulic equipment

Founded in 1940 and since then, we have been making constant improvements, in order to offer you a better and wider service.

Located in Northern Spain, an area with a long experience and traditionally associated with engineering, we have modern facilities and machinery for fast and reliable production.

As the Leading Alternative, we are trustworthy, safe, reliable, quick, efficient and flexible to adapt to each of our customers needs and requirements. We have a worldwide reputation that is supported by an extensive network of Distributors and Technical Service Centres that makes sure we have the support and coverage for our customers worldwide.

Actuant

Larzep is wholly owned by Actuant Corporation, a diversified industrial company serving customers from operations in more than 30 countries.

The Actuant businesses are leaders in a broad array of niche markets including branded hydraulic tools and solutions; specialized products and services for energy markets and highly engineered position and motion control systems.

The Company was founded in 1910 and is headquartered in Menomonee Falls, Wisconsin, USA. Actuant trades on the NYSE under the symbol ATU.

For further information on Actuant and its businesses, visit the Company's website at www.actuant.com

INTRODUCTION

The most advanced technology

Our products are specifically designed to cover multiple industrial applications, and to solve in a simple and economical way the problems which can be encountered with the movement of heavy loads. We use the most advanced technology in our Technical Department to make sure customers problems are solved in a timely manner utilizing our special products and tools.

Quality

A specific solution for each customer, with the best design and best manufacturing techniques and control, we test each product to guarantee its safety and reliability.

This process is supported by the Registered Firm Certificate ER-0404/1995 of UNE-EN ISO 9001 standard and the application of several European and International standards which we apply for each product range. Our Quality Management System is certified since 1995.
