

## AUTOMOTIVE

**LARZEP** offers a wide range of jacks and automotive products including:

Bottle jacks, High lift transmission jacks, Trolley jacks, Portable cranes, Hydraulic tables, Air service jacks, High tonnage air service jacks, Pipe benders, Presses and Maintenance units.

- ✓ Bottle jacks from 2 to 50 Tn. Also available telescopic jacks.
- ✓ High lift transmission jacks have 4 wheels for easy manoeuvrability. The adaptable head allows a variety of jobs to be undertaken safely.
- ✓ Trolley jacks have a precise control during lifting or lowering operations.
- ✓ Portable cranes with an extendable jib to increase reach and with polyamide wheels and swivel rear castor for easy movement.
- ✓ Lifting tables can be blocked at different heights with safety pins.
- ✓ Three telescopic air service jacks available as standard. Easy to operate, with the control located at the end of the handle and with three-position handle to place the jack under the load safely.
- ✓ High tonnage air service jacks from 30 to 150 Tn with one, two or three stages. Easy to operate, with the control located at the end of the handle and with three-position handle to place the jack under the load safely.
- ✓ Pipe benders suitable for carrying out operations with plumbing pipes from 1/2" to 3". Built-in pump as standard.
- ✓ Presses from 10 to 250 Tn with strong bench mount frame (EC models 10 and 20 Tn) or floor mounted H frame. Available with electric, air hydraulic or hand pump.
- ✓ Maintenance unit designed for operations such as pushing, separating, joining, lifting, compressing, stretching and fixing.
