

## STANDARD CABLE LOCKOUT

The OSHA standard for The Control of Hazardous Energy (Lockout/Tagout): Title 29 (CFR) Part 1910.147

Standard Cable Lockout is made completely from PVC and is spark resistant. Ergonomic design makes it a "cinch" to tighten cable - hold device in one hand and cinch tight with the other. Built-in cable loop keeps cable neatly coiled when stored and prevents it from dangling loose when device is being used.

### Features

- Cable lockouts are incredibly versatile making them perfect for all of your unusual energy isolating devices that are difficult to lock out
- Compact, lightweight body is made of rugged impact modified glass filled nylon giving them superior chemical, corrosion and
- Sheathed metal cable is 3/16" diameter including vinyl coating
  - 6 lock holes in handle accommodate most lock shackles and hasps
- Supplied with standard length of 1 metre
  - Additional cable length also available on request
