

UNIVERSAL CABLE LOCKOUT

Universal Cable Lockout is designed as a cost-effective solution to lockout any type of valve in aggressive environments. It offers a reliable alternative to expensive or more difficult to use products such as chains and security seals.

Features

- Cable lockouts are incredibly versatile making them perfect for all of your unusual energy isolating devices that are difficult to lock out
- Compact, lightweight body is made of rugged engineering plastic giving them superior chemical, corrosion and temperature resistance properties
- Sheathed metal cable is 3/16" diameter including vinyl coating
- 6 lock holes in hasp accommodate most lock shackles and hasps
- Supplied with a standard length of 2 metres
- Additional cable length also available on request

The OSHA standard for The Control of Hazardous Energy (Lockout/Tagout): Title 29 (CFR) Part 1910.147
