

## UNIVERSAL VALVE LOCKOUT

The OSHA standard for The Control of Hazardous Energy (Lockout/Tagout): Title 29 (CFR) Part 1910.147

Universal valve lockout systems are versatile, rugged, easy-to-use and lightweight - perfect for locking out all types of standard valves with a single device. They are designed to handle extra impact and resist chemicals making them ideal for just about any environment.

Each lightweight valve lockout is made of industrial-grade steel and nylon for extra impact and chemical resistance

An open-ended clamp fits over closed rings and wide handles to lockout valves

### PRODUCT DESCRIPTION

### PRODUCT CODE

Universal Valve Lockout

LM-UVL

### WHERE TO USE?

- Clamp attaches to butterfly handles, preventing trigger handle from being squeezed
- Use cable attachment to lock out gate valves

These lockout devices are great for locking out large levers, T-handles and other hard to secure mechanical devices

A 2 Meter cable attachment is available in 1/8" nonconductive nylon or rustproof vinyl-coated steel
