

LOCKOUT TAGS

Your LOTO program begins and ends with a LOCKOUT TAG.

It should be durable, easy to complete and easy to understand.

LOTOMASTER's Lockout tags are made of flexible plastic which can be attached to all the lockout devices using a padlock or a cable tie

Tagout devices warn against hazardous conditions if the machine or equipment is energized.

Additionally, OSHA 1910.333(e) and (f) require that all disconnecting means show the magnitude and shall be legibly marked to indicate the purpose, unless located and arranged so the purpose is evident.

PRODUCT DESCRIPTION	PRODUCT CODE
Standard Lockout Tags	LM-ST
Photo Tags with Liner	LM-TWL

STANDARD LOCKOUT TAGS:

Made from 0.5mm Plastic these Lockout Tags are designed to withstand the toughest of environments. Each Tag has reinforced eyelet for superior pull strength and durability. The eyelets are big enough to accommodate Lockout Padlocks and are writable with Marker Pens.
