

The Telescopic System

The MayTec Telescopic System allows the construction of linear axes and drive systems using minimal components.

The excellent glide properties of each segment along with fine adjustment capabilities guarantee minimal play between sections and high load bearing capacity.

Benefits of the MayTec System:

- high flexibility
- high load bearing capability and durability using low weight sections
- modular with simple construction
- compatible with the Maytec Profile system
- uses standard Maytec slots for the mounting of accessories and control elements
- maintenance free and corrosion resistant
