

Air Tool Accessories

PCL understand that the performance of your air tools is directly linked to the accessories you use on them. Just like a Formula 1 car relying on the quality of its tyres, the PCL air tool user deserves the best accessories for their tool investment.

That's why PCL has developed a range of premium quality accessories to complement the full range of PCL air tools. With PCL air tool accessories you can be confident that you will get the job done faster (aiding profitability), and be working with the safest combination of tool and accessory.

3 Piece 1/2" Drive Alloy Wheel Impact Socket Set

This 3 piece high quality set of alloy wheel impact sockets comes in the 3 most popular sizes of impact sockets for a 1/2" Drive Impact Wrench.

FEATURES

Impact rated 6 point chrome molybdenum sockets	Features two grease rings for superior user grip
3 socket sizes to cover most standard wheel nut sizes	Offers Z-Drive contacting the flat walls of fasteners for stronger grip

PART NUMBER

 x1: 3" coarse screw lock conditioning pad

3" / 75mm Buffing Accessory Pack

Buffing accessory pack contains two different grades of sponge pad, a lambswool pad and a spare 3 in backing pad. Ideal for use with the APT902 when installed with a speed regulator.

FEATURES

Velcro backing pad allows simple removal and attachment of buffing pads Felt backed buffing pads for easy transfer to backing pad

High grade sponge and lambswool pads for efficient buffing

PART NUMBER	SIZE	THREAD SIZE	MATERIAL
APA92	3 in / 75 mm	M6	Sponge/lambswool

2" / 50mm Velcro Backing Pad for Mini Sander

This spare 2" Velcro backing pad is designed for use with the APT902 sander. Ideal for quick transfer of sanding discs.

FEATURES

Hardened composite body material Standard threaded end to fit the MINI Sander

High grade Velcro

PART NUMBER	MATERIAL	DIAMETER	THREAD SIZE
APA93	Composite/Velcro	2 in / 50 mm	M6

3" / 75mm Velcro Backing Pad for Mini Sander

This spare 3" Velcro backing pad is designed for use with the APT902 sander. Ideal for quick transfer of sanding discs.

FEATURES

Hardened composite body material Standard threaded end to fit the MINI Sander

High grade Velcro

PART NUMBER	MATERIAL	DIAMETER	THREAD SIZE
APA94	Composite/Velcro	3 in / 75 mm	M6

Mini Speed Regulator

Designed to reduce the free speed of air tools with a 1/4 in thread. Ideal product for enabling the user to turn a powerful sander into a precision buffing tool.

FEATURES

Heavy duty steel material
Speed wheel on regulator head for easy increase or decrease of speed

PART NUMBER	THREAD SIZE (in)
APA91	1/4

Air Tool Whip Hoses

The vibrations caused in the use of air tools make a coupling connection subject to Health & Safety Regulations.

See ISO 4414:1998 and EN 983:1996 for safety requirements covering the installation and use of pneumatic equipment.

A Health and Safety Guide has been produced which covers the use of pneumatic equipment.

The Health & Safety Executive Guide HS(G) 39 states "requirements for quick acting couplings apply to most percussive and vibrating air tools, which may be fixed or hand held. If a quick acting coupling socket is fitted at the hose end adjacent to the tool, the plug should not be screwed directly into the inlet port but should be fitted onto a short isolation hose (0.5 m to 1.5 m long), thus isolating the plug and socket from the tool vibration."

The International Standard (ISO 6150:1998) recommends a minimum of 300 mm of flexible hose to be used between a vibrating tool and a quick acting coupling.

FEATURES

Working pressure @ 20°C: 300 lbf/in² (21 bar) Burst pressure: 63 bar
Temperature range: -10°C to 60°C

PART NUMBER	LENGTH	INSIDE DIAMETER	FITTINGS
HA2108	0.6 m / 2 ft	7 mm / 1/4 in	Standard Adaptor & R 1/4 Male
HA2124N	0.6 m / 2 ft	7 mm / 1/4 in	Standard Adaptor & NPT 1/4 Male
HA2149	0.6 m / 2 ft	10 mm / 3/8 in	Standard Adaptor & R 1/4 Male
HA2109	0.6 m / 2 ft	10 mm / 3/8 in	Standard Adaptor & R 3/8 Male
HA2155	0.4 m / 16 in	8 mm / 5/16 in	Standard Adaptor & R 3/8 Male
HA2116	0.6 m / 2 ft	13 mm / 1/2 in	100 Series Adaptor & R 1/2 Male
HA2132	0.6 m / 2 ft	10 mm / 3/8 in	XF Adaptor & R 1/4 Male

Please note - an increase in temperature above 20°C will affect the working pressure quoted above

Expertise in design and innovation has seen PCL establish itself as the brand to use in the most testing of tyre inflation and pneumatic applications

PCL has established itself as a market leader in equipment for tyre checking and inflation in Aviation. PCL's equipment is now a common sight in aircraft service centres around the world and its products have become a key part of the essential ground support equipment with the capacity to deal with Nitrogen and Air.

The new ranges developed have now brought the latest digital technology to the industry with product available for all applications - Aircraft, Tugs, Air Bridges and Service Vehicles etc. - increasing the levels of service, efficiency and safety which can be offered.

As part of the HORNGROUP, PCL is a truly international company and as well as offering the PCL branded product we can now also provide the TECALEMIT range of equipment for fluid applications with a wide array of products suitable for Aviation workshops.

A HORNGROUP BRAND
