Benefits and service

pewag tire protection chains

Benefits

Earth Mover Tires are the highest single cost factor for the operation of a wheeled unit and sensitive to cuts, punctures and other damages.

Their high value and world-wide shortage means that pewag tire protection chains solve many of these problems by providing the following advantages:

Lower direct hourly operating costs:

- Multiplied tire life – significant reduction of tire costs
- Predictable service life of chains and tires – accurate budgeting at lower costs, low financial costs
- Minimized down-time due to tire failure – maximum equipment availability
- Improved stability, increased traction and better penetration for digging and break-out – increased productivity in output per hour

Additional benefits:

- Optimum tire protection – reduced tire maintenance
- Protection plus traction with chain use – safe operation even in worst conditions

Service

After Sales Service, an elementary key point of pewag's long-term partnership with our customers, is offered by the pewag worldwide network:

- Technical assistance and repair by chain experts
- Training in chain handling (mounting, correct tensioning, repair, adjustment, dismantling, etc.)
- Inspection calls including performance reporting
- Availability of spare parts
- Special tools and accessories facilitating chain handling and maintenance
- Manuals and relevant risk assessments

Application areas

Overview

Application Areas

Open pit mining	16-17
Underground mining and tunnelling	18-19
Quarrying	20-21
Slag and Scrap Handling	22-23
Traction	24-25
