## The Pewag "All-Square" Story

### Pewag Snow Chains

#### #1 In Safety

#### #1 Brand in North America and World Wide

Pewag has been manufacturing chains for over 275 years and was one of the first manufacturers to develop snow chains for the automotive industry. Located in the middle of the Alps in Graz, Austria, Pewag has exceptional experience with ice and snow conditions in the mountains. Pewag engineers have applied their experience and know-how to create newer and better traction devices that have made Pewag the #1 chain brand world-wide. All Pewag chains are manufactured in Europe under the strict specifications of Pewag Austria.

Pewag Inc. continually provides the North American market with snow-chains for over 34 years and is now the leading brand in the USA! Pewag has always provided high quality traction products that offer the user excellent performance and superior value. Pewag was the first company to introduce the "All-Square", long wearing, alloy square link chain. This chain is specifically designed to provide superior wear and traction under the most severe conditions.

Pewag "All-Square" Tire Chains outlast and outperform standard carbon steel twist link and V-Bar twist link chains at a minimum Four-to-One! How does Pewag achieve this performance?

- Highest Alloy content with **TITAN Grip**® steel - 63 RHC - tool like steel hardness.
- Deeper case hardness at 6% depth for maximum wear resistance.
- Unique square-link design for better traction.
- Reversible for maximum wear.

Pewag "All Square" is the chain of choice for many trucking companies and D.O.T.'s.

Pewag also offers a whole series of pattern style chains for light truck and heavy equipment applications. Pattern style chains provide superior performance and superb lateral traction under the most extreme conditions:

- Highest alloy content with **TITAN Grip**® - 63 RHC - tool like steel hardness.
- Higher case hardness at 6% depth for maximum wear resistance.
- Unique diagonal pattern designs for superior forward, stopping, and lateral traction.
- More cross sections for better traction and increased safety.
- Welded rings on side-chains for additional strength and durability.

Pewag pattern-style chains are the preferred brand of many professional users such as Municipalities, Counties, the U.S. Military, the Canadian Military, N.A.T.O. and D.O.T.'s.

**What benefit does the customer have from the Pewag experience? Simply stated:**

*When you think of Safety, Wear and Value...*

**"Think All - Square!"**
