VHT **Vent Heads**

Description

Spirax Sarco VHT vent heads are designed for fitting to vertical open ended steam vent pipes. The vent head will discharge dry steam safely to atmosphere, avoiding the possibility of discomfort or even injury to personnel and material damage to buildings.

The vent head incorporates an internal baffle to separate entrained water from the steam.

Principle features:

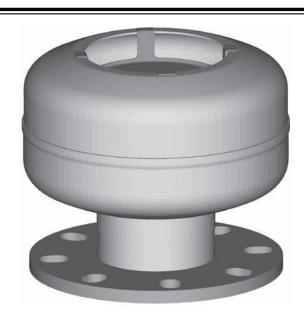

- Efficient separation.
- Stainless steel body for long maintenance free life.
- A simple and effective vent head for general applications.

ApplicationsVent heads are ideal for use on blowdown vessels, condensate vessels, boiler feedtanks, hot water storage tanks etc.

Warning: Vent heads must not be used for safety valve outlets. Vent heads are selected to be the same nominal size as the vent pipe.
