# Welcome to PCL

PCL has a long history of excellence as a customer-focused company, having been founded in 1938 when the very first pressure gauges were designed and manufactured in Sheffield.

Progress over the following three quarters of a century has been phenomenal, with the company becoming a familiar brand name across the world, before becoming part of the HORNGROUP of companies, along with the TECALEMIT brand in 2011.

Today PCL is recognised as the global market leader in the design, manufacture and distribution of the most advanced and comprehensive portfolio of tyre inflation and compressed air products. Its products are a familiar sight on garage forecourts, tyre shops, factories and workshops around the world.

## Local service

Our dynamic and forward-thinking company continues to expand, providing first-class, reliable and cost effective products for tyre inflation and pneumatics, ensuring our customers are able to access a localised service wherever they are based. This attention to quality, constant improvement and development is reflected in our facilities in China (PCL, Shanghai) and India (PCL-SUMO, Mumbai) – further extending our international capabilities.

## Helping your business prosper

It is this dedicated and pro-active approach that has established PCL as the brand of choice, with quality, high performance products designed to fit any industry need to help your business prosper. We can even help you to identify the best revenue generators for your company, for example products that get the job done quicker, meaning more revenue and profit.

### After sales support

Our dedication to customers means we are not just a supplier of products, we act as a partner too, providing a full after sales service, as well as support to sell our products, such as bespoke product literature, training and product user manuals.

### Highest quality standards

All PCL products are thoroughly tested; mostly to internationally recognised standards, and individually certified before they leave the factory, giving you complete peace of mind. Every product is built to last using only the highest quality components so you can be safe in the knowledge that the products are built with reliability and durability in mind.

## Why PCL?

PCL can provide you with the best products and service available. We pride ourselves on providing a solution for every application, and every level of activity, whilst remaining true to our ethos of quality products and exceptional service.

PCL maintains a firm commitment to its roots, still manufacturing from its production facility in Sheffield, the cradle of engineering excellence. The modern factory occupies over 12,000m<sup>2</sup> and utilises the very latest production equipment. As such, PCL is proud to display the city's prestigious mark of quality and excellence on its "made in Sheffield" products.

For customers this means access to old favourites in addition to ground-breaking new products and ranges, including: electronic tyre inflation, air tools, air treatment and equipment for nitrogen applications.

Add to that a loyal and highly skilled workforce and you have a company which delivers reliable inflation and pneumatic solutions you can count on, at prices you can afford.

**...for all your pneumatic needs.**

### Expert technical help

In addition, our customers have access to full technical support and site visits where necessary. Our highly experienced staff are trained to help you solve product and application problems, providing advice you can rely on.

### Extensive stock

We won't keep you waiting. The PCL warehouse stocks all of the products in this catalogue and in most cases; your order is shipped the same day it is received.

### No nonsense warranties

All products featured in this catalogue carry a 1 year warranty.
