

maxxTop Platten-Förderketten maxxTop Plate top chains

FLEXON Platten-Förderketten sind Hybridketten aus Stahl-Rollenketten und Kunststoff-Platten, welche die hohen Bruchlasten der ELITE Rollenketten mit den ebenen Oberflächen der Schamierbandketten miteinander vereinen.

The FLEXON range of Snap On Plate Top chains are two piece assemblies of base roller chain, in steel or stainless steel, onto which a plastic plate is mounted. The combination of the two elements creates a chain with high breaking load provided by the ELITE base chain plus the benefit of a very flat top surface.
