

Schütt® Stopwatch Stoptec PC-500

Article-No.: L3830

Schütt® Stopwatch Stoptec PC-500

The Schütt® Stopwatch Stoptec PC-500 has a three line display and a 500 file memory. With this memory, the stopwatch is ideal for coaches and sports instructors, because through this function, thanks to a dual timer mode, one or two times can be recorded simultaneously and recalled at a later time, until the time of deletion. The clock also has a date and an alarm.

Features

- Pressure point mechanism and three-line display
- 500 file memory
- Time and date
- Splashproof
- Shockproof
- 3 Volt Litium Battery CR2032

NOTE: ELECTRICAL & ELECTRONICS LAW

According to European regulations, used electrical and electronic equipment may no longer be disposed of with unseparated municipal waste. In Germany, you are legally obliged to collect old devices separately from unseparated municipal waste.
